Eddie Spider-Plush is PROBLEMATIC.

Eddie Spider-Plush is known by many as Daily Spider-Plush on both Twitter and Tumblr available now... But not many people know about his shady beginnings and his problematic past... It all started on October 27th, 2020, when Spidey (nickname given by one skull902) said this

As you can see, the world went wild when he said this, as you can tell by the 2 (two) people that replied, one being his older brother, and the other being wet_dream04, the artist behind his current profile picture.

With this newfound popularity, Eddie Spider-Plush had decided that he will use his large voice and power to make everyone's lives HELL for what I presume to be his own amusement.

He is a total jackass and a ragebaiter to his friends and he really does NOT know how to draw as shown and demonstrated by his famous "Evil Spider-Man" series, a comic so bad that even a person as evil as Daily Spidey Plushy has disowned it. He calls it "his self-insert comic because I am evil and rude and like to shoot people with a gun I made out of paper, it doesn't shoot, really."

On the night of October 12, 2022, Edward wrote THIS

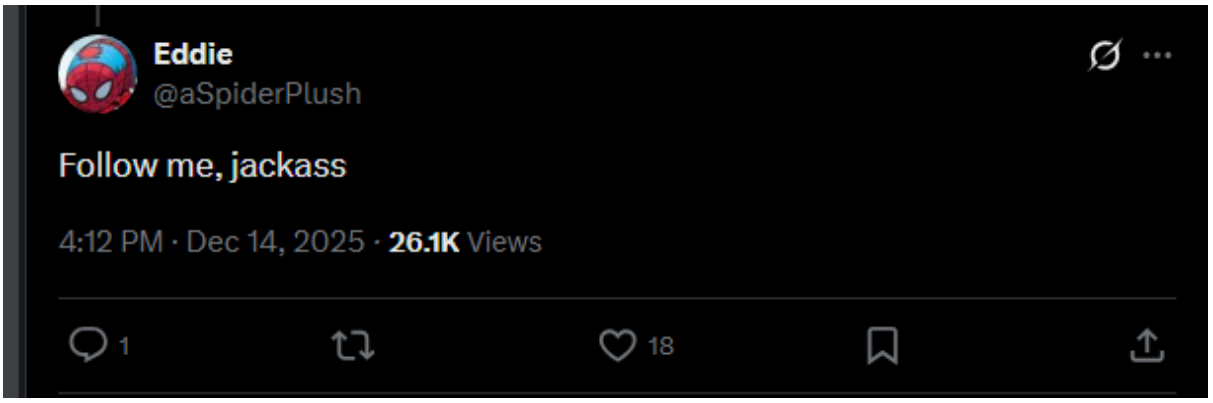
Just goes to show you, don't meet your heroes. Though, I'm not sure why anyone would want to have THIS MAN as their hero.

Oh! And here is the time he was begging for followers!



C'mon, Edmund, you have over a thousand followers, that's like... A million followers, isn't that enough? Sheesh, the greed of some people.

He has the fucking NERVE of being excessively horny, which is a SIN, and he's going to hell, do you ***really*** wanna be

associated with someone that is going to hell?

We had to censor the face of the victim, and the name of the individual posting the picture of the victim, and Grok, and we had to censor the date too, and we censored c*ck because it was too explicit, but we left the username of the person being accused here so like if you wanna follow... And yes, I know the victim presented here is someone that is fictional, but if this is what Eddie says about fictional women from animes, imagine what he could say to YOU, or YOU, or even YOU!

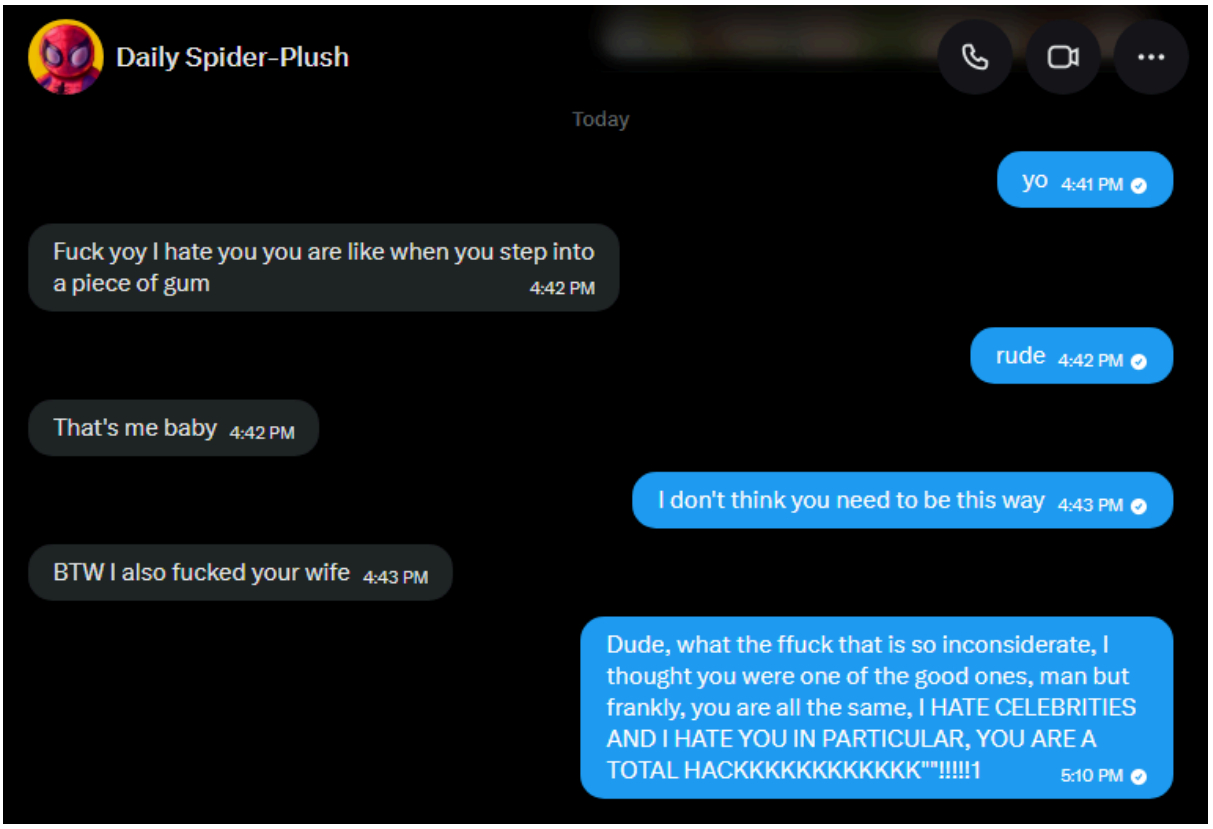
Also, Eddie is a supporter of Marvel Comics, and I don't like Marvel comics because I just think Superman is way better developed than Spider-Man, y'know?

I now present to you some testy monials or however you spell or smell it, these are all taken from either anonymous sources or sources that I didn't care to keep anonymous because frankly, I'm just as much of a scum as ol' Ed here.

Testimoneys

Anonymous Twitter Follower #1 (Nickname: John Doe)

I have known Eddie since 2020, and it breaks my heart to see him turned into such a horrible monster, I thought he was being a little rude one time, so I contacted him to see what was up with him and this is what he said:



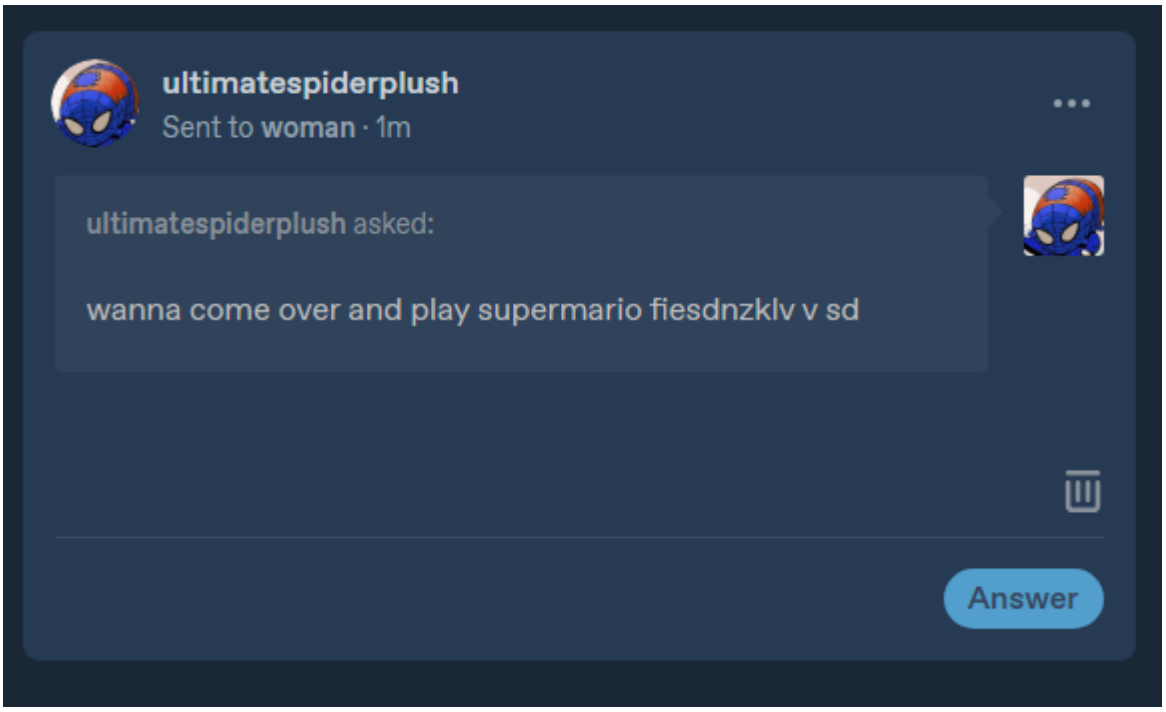
Daily Spider-Plush
Today
yo 4:41 PM
Fuck yoy I hate you you are like when you step into a piece of gum 4:42 PM
rude 4:42 PM
That's me baby 4:42 PM
I don't think you need to be this way 4:43 PM
BTW I also fucked your wife 4:43 PM
Dude, what the ffuck that is so inconsiderate, I thought you were one of the good ones, man but frankly, you are all the same, I HATE CELEBRITIES AND I HATE YOU IN PARTICULAR, YOU ARE A TOTAL HACKKKKKKKKKKK""!!!!!1 5:10 PM

I was crying all day and night and eventually a neighbor shot me in the leg and I stopped. I have a large suspicion that this neighbor might be Eddie himself, but then I consider that he lives in Mexico and I live all the way in the UK, but I still suspect that it's one of his agents.

Anonymous Tumblr User (Nickname: Jane Doe)

I am a fairly attractive woman with purple hair that lives relatively close to Eddie Spider-Plush, and I was one of his loyal Tumblr followers up until I received this message in my

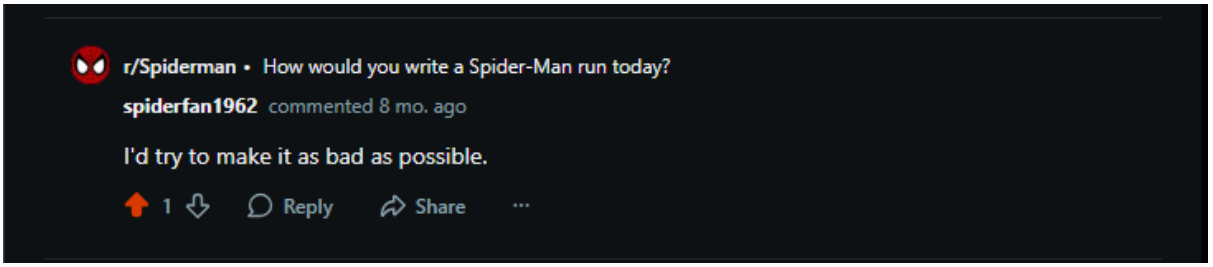
Tumblr inbox at 2 in the morning.



Wow, the nerve of this guy, he knows I hate Supermario... And I also can't help but notice the code at the end of the message, which translates to "jerk chicken" and I hate jerks or chickens so I just don't like this message in the slightest.

Nick Lowe

I have been thinking of hiring this man for the job of writer for the world famous Amazing Spider-Man series, but then I go to his reddit and see THIS



r/Spiderman • How would you write a Spider-Man run today?

I'd try to make it as bad as possible.

If he can do this to our most beloved series, imagine what he could to to YOUR favorite comic series? FUck this guy.

Cold guy

I'm really cold, and I also think Eddie has something to do with climate change.

Anonymous classmate (Nickname: Jane Foster)

I am just astounded by this, I've known him since elementary school and I always hated him for no reason in particular other than the fact that I just have a lot of hate in my heart for men that like comic books and video games. I made my hatred for him KNOWN by being a constant pain in the ass to him, but then he did something that made my hatred even stronger.

One time, he blew a kiss at me unprompted during P.E. I was literally so grossed out I ran away and called him a pig and I was about to tell the teacher, but then

Anonymous Classmate 2 (Nickname: John Frusciante)

I am a philosophy student at Yale University- Just kidding, I used to be one of his classmates.

I think one of the reasons Eddie has so much hatred in his heart was because one time we were at a sleepover and we were summoning demons and one of them possessed his body and he has been saying and doing extremely questionable things ever since.

Former Team Member (Nickname: Big J)

Eddie and all of his former guest writers and Daily Spider-Plush admins used to live in a house/office combo before we suddenly noticed how mean and condescending he was to us. He would constantly belittle his guest writers due to small typos and not pointing out minor continuity errors.

He would belittle his Twitter and Tumblr admins continuously if they were even a millisecond late.

He also would put us all in a meeting room to yell at us about how we weren't as good as his previous team, and how much resentment he felt towards his college classmates even though they were usually nice with him.

And he also invited hookers to the building EVERY night, I swear she was paid more than US, the team that built him.

The worst part was the friday nights, the nights that he called "Beat the shit out of your employees nights" and he would beat the shit out of every one of us. I would try to hide under the desk, but it was HIS desk, so he always found me and gave me a wallop.

I remember one night, he was giving us some speech while drunk and threw a bottle at the wall, and the bottle didn't break, so he just fell over on the stage and immediately died.

Conclusion.

In conclusion, Eddie is a being full of hatred in his heart due to some demon or maybe he just sucks as a person, I don't understand how anyone could like him. He hasn't done anything noteworthy aside from being the scum of the earth and committing six of the seven deadly sins.
